P.S. FILM EXTRA

for difficult fabrics

Description

PU plotter cut heat seal material with polyester backing. Very thin and suggested for "difficult" fabrics such as windbreakers, K-Way, nylon, leather, sports bags, umbrellas. Average thickness: 90 micron.

Basic information

Due to the many different base materials available on the market, the following heat transfer instructions are given as a guideline only:

Plotter settings (eg. with SUMMACUT D6oR plotter)

Blade: new at 50° Minimum required pressure: 50 gf

Transfer setup

Temperature: 160°C Time: 15" Pressure: medium (3÷4 bar)

Application instructions

N.B.: if applied onto treated fabrics, we recommend to perform a prior application and washing test.

- 1) Mirror cut the material
- 2) Weed the exceeding material
- 3) Preheat the fabric for a few seconds
- 4) Place the material on the garment with its polyester backing
- 5) Heat apply
- 6) Remove the support warm or cold

Suitable textiles

Polyamide, nylon and treated materials (not suited for dye sublimation fabrics)

Washing instructions

(wait 24h after the heat transfer) 40°C max. – do not use bleach or other aggressive chemical agents **Dry clean:** no **Tumble dry:** yes

N.B.: all information given in this sheet are based on our experience

We recommend to always perform a test before starting standard production

The product meets the Italian and EU regulations relating to its proper use, and to the (EU)regulation n. 1907/2006/EU **REACH** (Registration, Evaluation, Authorization and Restriction of Chemical substance).
