

Product Description

Metamark MD-AC2 is a high quality art canvas suitable for fine art canvas prints, using solvent or eco solvent inks. The 100% cotton product benefits from a natural feel and has an even weave to give a high quality finish and excellent colour reproduction. It has a relatively bright white, semi matt finish. It is water resistant, and has good resistance to edge cracking and abrasion, even with low solvent inks.

Typical Applications

This Art Canvas is suitable for photographic fine art prints, stretched over a frame. For all other applications the customer should be aware that the product will shrink as a result of the printing process. See below.

Material Handling

When stretching over a frame it is recommended to use a frame with a very slightly bevelled edge which will avoid any possible minor edge cracking of the canvas. As the canvas is 100% natural cotton fibre it will shrink. This characteristic helps to tension it over the frame. Allow 24 hours after printing for the ink to gain full abrasion resistance.

Printing

To achieve the highest possible print quality please ensure that the correct profile is used. Most profiles are available and can be downloaded from www.metamark.co.uk. To avoid potential printing problems, always ensure that the material has reached room temperature and a relative humidity of 50% before printing. It is imperative that the printer is set up correctly and that the correct profile and heater settings are used. For a comprehensive list of printers compatible with MD-AC2 refer to the website.

Fabric Specifications

Weight	435gsm
Basic Fabric	2:1 100% natural cotton canvas
Type of Coating	Semi Matt Finish
Print Surface	Single side print face outwards
Shrinkage	Approximately 1%

Finishes

Finish Available	MD-AC2	White cotton
------------------	--------	--------------

Roll Presentation

Roll sizes	760mm x 25m 1370mm x 25m 1600mm x 25m
Presentation	Face film outwards

Durability

Fire Rating	No
Durability	Long term indoor and short term outdoor. Water fast.

Warranty: Metamark (UK) Limited warrants to its customers that graphics produced using Metamark Digital Vinyl will remain in good condition without excessive fading or colour degradation for the specified life time of the ink used, when correctly stored, printed and applied in accordance with procedures outlined in the technical literature. If within the specified years of normal use Metamark Digital Vinyl becomes ineffective for its intended use, then Metamark will provide sufficient material to produce a new replacement marking, and will at its own discretion, contribute an allowance in additional material towards the costs involved in replacing the graphics. In all cases, the converter is held fully responsible for storing, processing and applying the unconverted materials in accordance with Metamark's technical specifications. Metamark (UK) Limited will not be liable for any indirect or consequential loss or damage, and will not provide any allowance against improper usage, application accident, negligence, chemical damage or improper repair.

Please Note: The above data is given in good faith to provide an indication of the performance of the product. Purchasers should consider the suitability of each product for its intended use and the purchaser assumes all risks in connection with such use. Seller shall not be liable for damages in excess of the purchase price of the product nor for incidental nor consequential loss.
